Re: Daniel Graves v. Deutsche Bank Securities Inc.
Civil Action No. 07 Civ 5471

Dear Rick and Steven:

Enclosed, for your review is a document we recently received, setting forth the GCF Controllers' procedures and systems for recording booked and pipeline revenues. Although the date of the document, August 2004, is outside of the relevant period for our production, we wanted to produce it to you since it highlights the falsity of Mr. Graves's allegations that DBSI fraudulently inflated the achievements and pipelines of other bankers by giving multiple bankers pipeline credit for the entire amount of every deal (Complaint, ¶ 99) and that DBSI "made-up" figures by listing the same pipeline value for different transactions (Complaint, ¶¶ 100 & 101).

You will note that the document contains, as Appendix A5, a Sample Banker Report, similar to the reports attached to DBSI's position statement as Exhibits "C" and "F", whose validity Mr. Graves disputed in his Complaint. The Sample Banker Report, clearly not created for the benefit of Mr. Graves, reveals the following:

1. The franchise value of a number of the deals is attributed in total to all of the bankers that were involved with the deal. (For example, Aurora Communications – general advisory, where the same franchise value was attributed to Jeffrey Amling and Charles Carey, and Bertelsmann – Project Rock/Rock, where the same franchise value was attributed to Stephen Lovegrove, Bruce Macinnes and Christian Thun-Hohenstein.)

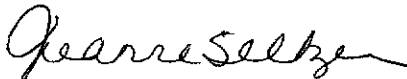

Richard T. Seymour, Esq.
March 12, 2008
Page 2

2. There are a number of different deals throughout the report that have the same pipeline value. (For example, Rand McNally & Co. general advisory, Sinclair Broadcasting -- refinancing, AT&T Broadband -- general advisory and BMG Storage Media - Project Blockbuster all have a 2002 Franchise Pipeline value of 3,423 million Euros.)

The attached policy makes clear what you and Mr. Graves have known since the start of this litigation, that the attribution of the full value of a deal to each team member and the estimation of the same pipeline value for a number of different deals was, and continues to be, DBSI's standard operating procedure and not, as you falsely allege, a purposeful falsification of reports to adversely affect Mr. Graves's revenue and pipeline numbers.

In light of this and other documents that we have previously produced to you, we again request that you withdraw those paragraphs in the Complaint that falsely accuse DBSI of fraudulent behavior in its submission of a position statement to the EEOC.

Very truly yours,

Joanne Seltzer

cc: Cliff Fonstein, Esq.

GCF Americas Industry Group Controllers

GCF Controllers are responsible for ensuring:

- results are reported accurately
- effective controls are in place for all revenue and expense items
- management reports are distributed on a timely basis
- deals are monitored closely to produce accurate forecasts
- inquiries from the business are handled in an effective and efficient manner.

Industry Group Controllers support the coverage groups and liaise between Product Controlling, Deal Logging, central MIS Controllers, MIS Technology, and the business to achieve objectives. The controller and CAO for each industry group is below.

Industry Groups	Business Area Controller	CAO
Chemicals / Energy / Utilities	Lorraine Donovan	Michael Vigliotti/Esther Brennan
Consumers	Fred Cuttita	Michael Vigliotti
Financial Institutions Group	Lorraine Donovan	Kerri Donovan
Healthcare	Fred Cuttita	Michael Vigliotti/Ed Gelling
Industrials / Transportation	Fred Cuttita	Michael Vigliotti/Art Vallette
Media	Lorraine Donovan	Kerri Donovan
Real Estate	Lorraine Donovan	Kerri Donovan
Technology	Lorraine Donovan	Kerri Donovan/Ed Gelling
Telecom	Lorraine Donovan	Kerri Donovan
Sponsors	Fred Cuttita	Amy Silver
Leveraged Finance	Fred Cuttita	Amy Silver
Latin America	Fred Cuttita	Michael Vigliotti

Client Manager System

The Client Manager system provides GCF with a global MIS platform for recording both booked and pipeline revenues. It is the principal repository for all fee-related revenues for all products within GCF. Deal numbers from Client Manager are also used in conjunction with DB expense processing systems to track deal/client expenses and invoice clients. It is, therefore, critical from a controlling perspective, to log in all new deals.

New deals are logged in with the Deal Logging Team. Controllers update the financial information.

Revenues

MIS reporting for industry groups recognizes franchise revenues (net revenues to the firm) and is based on deal team involvement in Client Manager. An MD or Director must be on the deal team to receive credit. Franchise revenues are double-counted between groups and countries.

MIS reports are run and distributed to CAOs and/or bankers each Thursday requesting updates to the pipeline. Changes are due back to Controlling by cob the following Tuesday. The timeline for distribution and review of the revenue reports is as follows:

- Week 1 – Preliminary Americas reports are sent to CAOs and/or bankers for review
- Week 2 – Final Americas reports are distributed to the Business Heads and CAOs. These reports are also bound and distributed to Thomas Gahan, Seth Waugh, Marc Pfeffer, Jacques Brand, Rich Byrne, Jim DeNaut, Monte Koch, Chris Ludwig, David Manlowe, Jeff Lehocky, Marc Mruz, Gilbert Gil, and Maureen Fahey.
- Weeks 3 and 4 – Pipeline reports are distributed to CAOs and/or bankers requesting updates. Changes are due back to Controlling by the following Tuesday. Controllers may also be notified of changes to non-financial information (i.e. deal status, deal team members) or of deals that are not logged. These changes are forwarded to the deal loggers.

A complete financial package is sent monthly. Five reports are included in the monthly package:

- Summary Report
- Actual / Booked Revenue by Product and Deal
- Actual/Booked Revenue by Client
- Pipeline Revenue by Product and Deal
- Banker Report

All revenues are reported in Euros.

Expenses

Controllers are responsible for ensuring that:

- Expenses are recorded accurately and in the correct accounting period
- Expenses are reviewed on a regular basis
- Unusual items are discussed with the business
- Non reimbursable or uncoded expenses are noted

Controllers distribute monthly, summary level expense reports to CAOs and GCF Business Management. The expense package includes a deal expense recoverability analysis of key expense categories such as legal fees, professional/consulting services, travel, entertainment, and car charges.

It is the CAO's responsibility to monitor group expenses, to make sure deal expenses are mapped to the correct deal numbers, and to invoice clients for reimbursable expenses when appropriate, i.e. when a deal closes.
